

Call for partner: Sound it out! 2016
European perspectives
on gender equality and girls* specific youth education

Sonnenberg Kreis e.V. is looking for **partner organisations** to complete the partner constellation for the International project **‘Sound it out! International perspectives on gender equality and girls* specific youth education’** to be held in Germany (International House Sonnenberg, St. Andreasberg) and Croatia (Zagreb) in 2016. The project is to be implemented within the **Erasmus+ Program**.

Project idea

After gaining first experiences in international out of school education for girls* in 2014 and 2015 we now want to implement a project with different connected modules. We will complement the existing elements (multipliers seminar and girls* camp) with 2 modules for persons who are more in charge for the organisational and/or pedagogical parts in such projects or in the basic work of the participating organisations. The long-term objective is to build a solid transnational network between organisations who are or want to be involved in international educational work for and with girls* and young women.

Modul 1: Preperational Meeting – Zagreb/Croatia

This meetings is ment to give all persons who are responsible for organisational aspects the chance for better preperation concerning formal and content based issues of the project. Besides getting to know each other personaly we will exchange about the aims each organisation follows with it's participation, there will be the chance to discuss the preliminary programs, different perspectives on feminism and educational work with girls*. One important point will be to share our experiences with Erasmus Plus which could also be useful for writing own applications.

The participants will get to know methods of out of school education focussed on genderrelated topics and the role of girls* and women* in Europe and the participating countries. We will work on basics of seminarconception and –implementation especially for international projects. After this week the participants are ready prepared to accompany groups to international youthmeetings, to assume parts of the programs or to implement small projects on their own. We will fix everything we worked on in a brochure to take home (documentation).
