Impressions conference venue

## **Make your free time in Budapest more interesting and discover Budapest with our actionbound “Welcome to Budapest”!**

**What is an ‘actionbounds’ ?** – the huge potential of gamification

A ‘bound’ is an interactive smartphone rallye. With the Actionbound app, one can play exciting fun and informative virtual scavenger hunts and lead the learners on the path of discovery.

The program quite literally augments our reality by enhancing peoples’ real-life interaction whilst using their smartphones and tablets !

Excellent for ice-breaking exercises, historical or archaeological sites, or more simply presenting a vision for the future.

[Video](#) that explains how it works.

**Play the “Welcome to Budapest” actionbound** designed by the EUNET Youth Committee

### **Instructions :**

1. Make small teams to play altogether – max. 6 participants/team. You could also play it on your own, but it’s more fun in a group.
2. One member per team takes its smartphone or tablet.
3. Download the ‘Actionbound’ app onto your mobile device. It’s available for iOS and Android devices at the respective online store. The app is free.
4. Simply scan the QR code ‘Welcome to Budapest’ you see on the right via the ‘scan code’ section of the Actionbound app.
5. Click on ‘start bound’. Follow the instructions on your screen and start playing and discovering the city differently! Have fun ☺
6. Don’t miss the award ceremony on Sunday morning for the winning team of “Welcome to Budapest”
